THE ARCHITECTS' CHOICE

Title 24 Compliant | NFRC Certified | LEED | Wind-Impact-NOA Rated | Lami.-Temp.-IGU | Insulated Frames & Panels

In an age when people are passionate about unique applications and architecture, **bp** Glass Garage Doors & Entry Systems stand out for their modern and distinctive style.

We are continually exploring new ideas, materials, and ways of integrating our products into every day designs.

bp Glass Garage Doors offer an attractive alternative for architectural, residential, and Commercial applications.

Our models: BP- 350, BP- 450 HD & BP-550 SHD offer a unique aesthetic appeal, maximum light transmission [without letting anyone see inside your garage], and durability.

If these characteristics are important to your design, **bp** is your solution!

INSULATED LINE AND ENERGY EFFICIENCY

Title 24 Compliant | NFRC Certified | LEED | Wind-Impact-NOA Rated | Lami.-Temp.-IGU | Insulated Frames & Panels

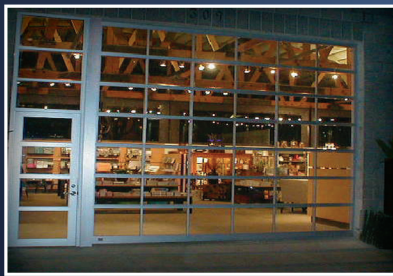

bp insulated frames (pat. pending) can combine with any type of insulative panel, which allow you to seal the wall opening and eliminate air leakage per NFRC 400.

Our insulated frames also comply with: U.S. Department of Energy, International Code Council and California Energy Commissions Title 24 subsection 116 requirements for fenestration and exterior doors.

This innovative product line has been rated by the National Fenestration Ratings Council (NFRC), not only for air leakage, but U-factor, SHGC and Visible Transmittance.

NFRC Certified Products participate in a Quality Control & Testing Certification Program by the American Architectural Manufacturers Association (AAMA).

GREEN MANUFACTURING AND LEED

Title 24 Compliant | NFRC Certified | LEED | Wind-Impact-NOA Rated | Lami.-Temp.-IGU | Insulated Frames & Panels

bp Glass Garage Doors & Entry Systems products are sustainable for today's environmentally conscious architectural design. Green friendly manufacturing processes minimize pollution and energy consumption for a reduced carbon footprint.

Our doors are made of 95% recycled aluminum, glass and steel. In addition, materials used in production are acquired regionally within 500 miles of our manufacturing facility.

This may help your projects achieve third-party certifications such as LEED or Green Globes by providing an environmentally preferable product.

bp Glass Garage Doors & Entry Systems has a commitment to utilize recycled materials first, while still meeting the needs of our valued customers and sustaining the environment.

HURRICANE LINE

Title 24 Compliant | NFRC Certified | LEED | Wind-Impact-NOA Rated | Lami.-Temp.-IGU | Insulated Frames & Panels

bp Glass Garage Doors have exceeded the highest standards required by Miami-Dade County's Building Code Compliance Office Notice Of Acceptance (NOA) 10-0802.02, and Florida Building Code - Product Approval: FL13380.

Our Hurricane Line meets both small and large missile impact testing requirements, with a wind load rating equivalent to 160mph. (+65.0 / -65.0 PSF).

bp doors have been approved for use in and out of all High Velocity Hurricane Zones (HVHZ).

Miami-Dade County & Florida Building Commission approved products, participate in a quality Control & Testing Certification Program by Architectural Testing, Inc., for quality assurance.

LIFETIME WARRANTY

Title 24 Compliant | NFRC Certified | LEED | Wind-Impact-NOA Rated | Lami.-Temp.-IGU | Insulated Frames & Panels

bp glass garage doors are constructed from extruded aluminum alloy frames of superior strength and durability. Our tensile strength is a minimum of 38 ksi, and approximately double the strength of standard 6063-T6 aluminum alloy.

bp doors are designed and installed to operate year after year under salt air, moisture and extremely harsh conditions; requiring very low maintenance.

Our Lifetime Door Frame Warranty includes: stainless steel hinges, stainless steel rollers (sealed for life), door frames, tracks and miscellaneous hardware.
